

## Attendee List At A Glance 2025

| COMPANY                     | JOB TITLES                              | COMPANY                             | JOB TITLES                                   |
|-----------------------------|---|-------------------------------------|--|
| 3M                          | Global Application Engineer             | Detroit Diesel Corporation          | Battery Design Engineer                      |
| 3M                          | Design Engineer                         | Detroit Economic Growth Corporation | VP of Business Development                   |
| 3M                          | Automotive Electrification Lead         | Doosan                              | Lead Engineer                                |
| ABB                         | North America Business Driver - Battery | DuPont                              | Field Applications Engineer                  |
| ABB                         | VP, Motion Traction - Canada            | DuPont                              | Global Technology Director                   |
| ADI                         | Application Engineer                    | DuPont                              | Scientific/Engineering Laureate              |
| Allison Transmission Inc.   | Senior Staff Engineer                   | Durr Systems                        | Process Engineer                             |
| Amazon                      | Senior Technical Program Manager        | Eaton                               | Embedded Software & Electronics Manager      |
| American Battery Solutions  | Director of Engineering Application     | Eaton                               | Chief Engineer                               |
| American Battery Solutions  | Senior Battery Validation Engineer      | ElringKlinger                       | Senior Product Engineer                      |
| American Honda Motor        | VP of Fuel Cell System Manufacturing    | ElringKlinger                       | Global Director                              |
| APTIV                       | Senior Application Engineer             | ElringKlinger                       | Senior Strategic Buyer                       |
| APTIV                       | VP - Market Acceleration                | EnerSys                             | Senior Director Cell Engineering             |
| APTIV                       | Senior Materials Engineer               | EnerSys                             | VP of Lithium Technology                     |
| Argonne National Laboratory | Senior Chemist                          | EnerSys                             | Director of Engineering Lithium Technology   |
| Argonne National Laboratory | Senior Scientist                        | EnerSys                             | Battery Testing Manager                      |
| BAE Systems                 | Senior Mechanical Engineer              | FIT Foxconn                         | Senior Development Engineer                  |
| BAE Systems                 | Director of New Business Development    | Flex-Ion                            | Battery Formation/Test Engineer              |
| BAE Systems                 | Battery Technology Director             | Flex-Ion                            | Process Lead/Quality Engineer                |
| BASF                        | Technology Development Engineer         | Ford                                | Battery Manufacturing Engineer               |
| BASF                        | Director of R&D                         | Ford                                | HV Battery Core Engineer                     |
| BMW of North America        | Senior Battery Pack Engineer            | Ford                                | Global Chief Engineer, Battery Manufacturing |
| BMW of North America        | Manager, E-Mobility Lab                 | Ford                                | Purchasing and Value Chain Manager           |
| BMW of North America        | Senior Battery Technology Engineer      | Ford                                | Battery Raw Material and Components Buyer    |
| Bollinger Motors            | VP of Product Development               | Ford Performance                    | Motorsports Electrification Engineer         |
| Bollinger Motors            | Battery Director                        | Foxconn Interconnect Technology     | Principal Development Engineer               |
| Bollinger Motors            | Senior Testing Engineer                 | Freudenberg Battery Power Systems   | VP of Advanced Manufacturing                 |
| BorgWarner                  | Senior Product Engineer                 | Freudenberg Battery Power Systems   | Testing Engineer                             |
| BorgWarner                  | Global Advanced Manufacturing Engineer  | Freudenberg Battery Power Systems   | Field Service Engineer                       |
| BorgWarner                  | System Development Engineer             | Freudenberg Battery Power Systems   | Director of Purchasing                       |
| Bosch                       | Senior Application Engineer             | Freudenberg E-Power Systems         | Battery Cell Development Engineer            |
| Bosch                       | Senior Product Manager - Li-ion Battery | Freudenberg E-Power Systems         | Senior Procurement Engineer                  |
| Bosch                       | Buyer                                   | General Motors                      | Battery Assembly Engineer                    |
| BRP                         | Director of R&D                         | General Motors                      | Senior Process Engineer-Electrochemical      |
| BRP                         | Project Manger - Battery                | General Motors                      | Battery Sustainability Engineer              |
| Case New Holland            | Electrical Lead Engineer-BEV            | General Motors                      | Lead Propulsion Architect                    |
| Caterpillar                 | Chief Engineer - Electrification        | General Motors                      | Senior Battery Cell Integration Engineer     |
| Caterpillar                 | Director of Battery Systems             | General Motors                      | Buyer - Battery and Raw Material             |
| Caterpillar                 | Chief Engineer - Battery Systems        | General Motors                      | Buyer - Battery Cells & Packs                |
| CATL                        | Process Quality Engineer                | Honda                               | Strategy & Development Senior Engineer       |
| CATL                        | Technical Solutions Manager             | Honda                               | Transmission Test Engineer                   |
| Clarion                     | Senior Manufacturing Engineer           | Honda                               | Quality Engineer Battery                     |
| Daimler Truck North America | Battery Cell Safety Engineer            | Honda                               | Manufacturing Test Engineer                  |
| Daimler Truck North America | Electric Product Design Engineer        | Honda Xcelerator Ventures           | Investor                                     |
| Daimler Truck North America | Battery Cell Engineer                   | Honda Xcelerator Ventures           | Managing Director Corporate Venturing        |
| Dana                        | Product & Process Engineer              | Hutchinson                          | Executive Director                           |
| Dana                        | SVP & CPO of Purchasing                 | Hutchinson                          | Thermal Management Engineer                  |
| Delta Electronics           | R&D Team Lead - EV Charging             | Hyundai America                     | Advanced Research - Battery Senior Engineer  |
| Delta Electronics           | TIBU Engineering                        | Hyundai America                     | Senior Manager - Battery Cell Development    |
| DENSO                       | Design Engineer                         | Hyundai America                     | Senior EV Battery Researcher                 |
| DENSO                       | Embedded Systems Engineer               | Hyundai America                     | Director of Open Innovation                  |

## Attendee List At A Glance 2025

| COMPANY                               | JOB TITLES                                       | COMPANY                           | JOB TITLES   |
|---------------------------------------|--|-----------------------------------|--|
| Hyundai America Technical Center Inc. | Purchasing Manager                               | Our Next Energy                   | Senior Buyer   |
| Isuzu                                 | Senior Systems Manager EV Integration            | Panasonic                         | Supply Chain Management Planner                        |
| Isuzu                                 | Commercial Vehicle Engineer                      | Panasonic                         | Engineering Manager                                    |
| John Deere                            | Senior Battery Electrical Engineer               | Panasonic                         | Technical General Manager                              |
| John Deere                            | BMS Electronic Engineer                          | Penn Engineering                  | Global Technical Product Manager                       |
| John Deere                            | Senior Battery Application Engineer              | PowerCo                           | Head of Environmental, Health, and Safety              |
| John Deere                            | Supply Base Manager                              | PowerCo                           | Battery Cell Mechanical Design Expert                  |
| John Deere                            | Battery Design Engineer                          | Proterra a Volvo Group Company    | Director-Strategic Sourcing                            |
| Lear Corporation                      | Principle Engineer                               | Ricardo                           | Electrification Engineer                               |
| Lear Corporation                      | Senior Buyer                                     | Rivian                            | Senior Manager, Mechanical Battery Systems Engineering |
| LG Chem America Inc.                  | General Manager                                  | Rivian                            | Cell Engineer  |
| LG Electronics Canada Inc.            | Site Project Manager                             | Rivian                            | Purchasing Manager                                     |
| LG Energy Solution                    | North American Battery Development Director      | Robert Bosch                      | Senior Engineer  |
| LG Energy Solution                    | Senior Systems Engineer                          | Robert Bosch                      | Sourcing Manager                                       |
| LG Energy Solution                    | Senior Design Release Engineer                   | Samsung                           | Systems Analysis Engineer                              |
| Linamar McLaren Engineering           | Product Engineer                                 | Samsung SDI                       | Field Application Engineer                             |
| Linamar McLaren Engineering           | Buyer-Electronics                                | Schaeffler                        | Senior Systems Engineer                                |
| Lucid Motors                          | Director, Battery Systems                        | Schaeffler                        | VP, Engineering  |
| Lucid Motors                          | Electrical Engineer                              | Scout Motors                      | Energy Storage Engineer                                |
| Lucid Motors                          | Senior Global Supply Chain Manager               | Scout motors                      | Battery Structures Senior Engineer                     |
| Magna                                 | Director of Engineering                          | Siemens                           | System Engineer  |
| Magna                                 | Senior System Engineer                           | Siemens                           | President, Digital Industries U.S.                     |
| Magna Automotive                      | Director of Power Systems & EE Hardware/Software | SpaceX                            | Principal Battery Engineer                             |
| Magna Powertrain of America           | Senior Buyer, Purchasing eDS NA                  | SpaceX                            | Battery Engineer                                       |
| MAHLE                                 | Head of Product Development - HVAC               | SpaceX                            | Global Sourcing Manager                                |
| MAHLE                                 | HVAC Product Engineer                            | Stanley Black & Decker            | Senior Engineer - Battery Packs                        |
| Mercedes-Benz                         | Supplier Quality Engineer                        | Stellantis                        | Battery Engineer                                       |
| Mercedes-Benz R&D North America       | Principal Systems Engineer                       | Stellantis                        | Powertrain CAE Engineer                                |
| Mercedes-Benz R&D North America       | Senior Battery Engineer                          | Subaru of Indiana Automotive Inc. | Procurement Manager                                    |
| Mitsubishi Chemical America           | R&D Developer, MTS                               | TDK USA Corporation               | Application Engineer                                   |
| Mitsubishi Chemical Corporation       | Business Senior Director                         | TE Connectivity                   | Director of Engineering                                |
| Mitsubishi Motors R&D of America      | Senior Engineer II                               | Tesla                             | Supplier Industrialization Engineer                    |
